Starting on the 16th afternoon and going into the 17th makes sense to me.

Do we want to consider starting on the afternoon of the 16th and continue into the 17th to make sure we can cover all that we need to? If we can do this all on the 17th, I'm fine with that as well.

Hey Michael,

Your correct. Were we planning on doing that on site or was this going to be a call? If possible on site would be my preference. All day calls get to be a struggle.

Mike,

Perhaps we should plan a full day of meetings? I assume we'll have enough to talk about between comments on the risk assessment work plans, the draft scope of the Phase II, and any other topics you might have in mind.

Hi Mike,

John and I were looking at the calendar for January and were hoping to get a date set for the technical meeting that you requested.

Does sometime during the third week in January work for you? Maybe Tuesday Jan 16th and/or Wednesday Jan 17th?
